FOR IMMEDIATE RELEASE

Interstate 680 Nighttime Lane Reductions for Resurfacing Work in Danville/San Ramon

Starting Wednesday June 21

Contra Costa County, Calif. – The California Department of Transportation (Caltrans) is working on a storm damage repair project on Interstate 680 to replace failed concrete slabs from Diablo Road in Danville to Alcosta Boulevard in San Ramon. The work is to repair damage created when excessive rain caused delamination and undue unraveling of the top layer of road surface. Areas of pothole damage also will be addressed by the resurfacing work. Work hours are anticipated to be as follows:

- **I-680 northbound and southbound Diablo Road to Alcosta Boulevard 6/21/17 – 7/1/17:**
 - Lane reductions nightly Wednesday through Saturday from 8:00 PM until 5:00 AM, and until 8:00 AM on Saturdays and Sundays.
 - Possible ramp closures may also occur during night construction; no two consecutive ramps will be closed simultaneously. Detour signs will be posted.

The project is anticipated to be completed in late Summer of 2017. Please follow signage directions during closures. Noise, traffic delays and odors may be associated with the construction work. All work is weather permitting.

Other projects are anticipated to be starting within the coming months addressing resurfacing work on I-680 in Contra Costa County. More information can be found at <http://www.dot.ca.gov/d4/stormdamageprojects2017/>.

Motorists should drive with caution through the work zone. Get real-time traffic on Caltrans Quickmaps: <http://quickmap.dot.ca.gov/>. Or follow Caltrans on Twitter: <http://twitter.com/CaltransD4>. Caltrans appreciates your patience as we work to maintain California's highways. Please #BeWorkZoneAlert.
